WELCOME & BRIEF HISTORY

WELCOME TO SPAIN
and more specifically... to EXTREMADURA!

The region of Extremadura, located in the southwest of Spain, borders Portugal. It is one of the largest regions in Europe.

Extremadura is divided into two provinces:
- Cáceres, in the north
- Badajoz, in the south

The capital of the region is Mérida. Although it is not commonly known, you will be living in a region with one of the most outstanding historical heritages on the Iberian Peninsula. Both Cáceres and Mérida have obtained the privilege of being recognised as World Heritage Cities by UNESCO.

We recommend that you take advantage of your leisure time to get to know our region. To whet your appetite, we are going to tell you a little about the city in which you are going to live.

CÁCERES

The urban area of Cáceres is a privileged enclave of monuments. It is the capital of Upper Extremadura and is proud of its rich cultural heritage, the excellent state of conservation led to its declaration as a National Monument in 1949 and its proclamation by UNESCO as a World Heritage Site in 1986. Cáceres is also the Third Monumental Ensemble of Europe which was awarded by the Council of Europe and is part of tourist networks such as the World Heritage Cities of Spain, Jewish Quarters and Silver Route. This city has been the setting for numerous series and films, such as Game of Thrones, Romeo and Juliet or The Cathedral of the Sea, which have allowed Extremadura’s great historical and artistic treasures to be shown to the world.

Cáceres has approximately 96,100 inhabitants and is a city where you can find everything you need. There are shopping centres, supermarkets, local shops, bars, restaurants, and a wide variety of events that make it easy to enjoy the city.

As we don’t want to leave behind the rest of the cities that make up our district, we are going to tell you a little about each of them...

BADAJOZ

This is largest city of Extremadura based on three geopolitical points. These are the Guadiana River, the Cerro de La Muela or Cabezo del Monturio (the hill on which the Arab Alcazaba stands), and Portugal, an unavoidable reference point for the existence of Badajoz and the determination of its most authentic signs of identity.
The capital of Badajoz is the most important economic, cultural, and service centre in the southwest of the peninsula, and the focal point for all the territories included in the Madrid-Seville-Lisbon triangle. Badajoz is Arab and Christian, military and religious, bordered and Guadianero. A hinge between Spain and Portugal. It is historic and modern, industrial and artisan, castizo and cosmopolitan, hospitable and welcoming, friendly and tolerant. It is always active... and always open to visitors.

MERIDA

The Capital of Roman Lusitania, was recognised as a World Heritage Site for its archaeological wealth and has been a World Heritage Site since 1993. The large number of sculptures, as well as the grandeur and importance of its monuments, make it the most important archaeological centre of the Roman period in the Peninsula.

On the outskirts of the city are remains of its Roman past, such as a circus, amphitheatre, and theatre, which is the most sumptuous of the eighteen Roman theatres found in Spain.

The remains of temples and the famous Trajan’s Arch have been found. The city has become a growing industrial and service centre. Since February 1983 it has been the capital of the Autonomous Community of Extremadura.

PLASENCIA

Located in the north of the province of Cáceres, on the Silver Route and on the banks of the river Jerte, it was conceived as a fortress and is known for its old quarter. Plasencia is a welcoming, bold, and dynamic city characterised by its natural setting. In its surroundings we find natural paradises such as the Jerte Valley, La Vera, the Ambroz Valley, Las Hurdes, Monfragüe, the Alagón Valley and the Sierra de Gata.
COMMITMENT TO RENEWABLE ENERGY SOURCES

Extremadura produces one out of every four GWh of photovoltaic solar energy in Spain.

Extremadura closed 2022 with a total of 1,480 new MW of solar photovoltaic technology, 38.3% more than it had in 2021, making it the only region in our country reaching more than half (50.5%) of its installed capacity.

This is some of the data included in the Spanish Electricity System Report 2022 and the Renewable Energies Report 2022; Red Eléctrica. Documents that include the main magnitudes of the sector in our country.

These figures for 2022 show that Spain is the European Union’s renewable energy driver. Everything points to the fact that, thanks to the efforts made last year, 2023 will be a great year for the ecological transition in which our country is immersed.

According to the current report presented by Red Eléctrica, 80.8% of Extremadura’s generation fleet is renewable. Hydro, with 21.5% of the installed MW, being the second in its category, only surpassed by solar photovoltaic. Nuclear, with 19.1%, is in third place.

In terms of electricity production, Extremadura has consolidated its leadership as the region that contributes the most photovoltaic solar energy to the national electricity system with a total of 6,952 GWh. One out of every four GWh produced with photovoltaic panels in our country comes from Extremadura. This technology, of which generation has grown by 40.8% in 2022 compared to 2021, reached the second position in the regional mix with a share of 26.5% of the total. This was only surpassed by nuclear with 61% and followed by solar thermal (6%), hydro (4.7%) and other technologies, which obtained a share of 1.7%.

A total of 26,247 GWh were generated in Extremadura in 2022, 6.3% more than in the previous year, representing 9.5% of the national production. Of all the energy generated in the region, 38.7% corresponds to renewable sources.

Extremadura was also the leader in electricity production free of CO2 equivalent emissions (greenhouse gases), which accounted for 99.8% of its total generation structure.

The autonomous region’s electricity demand in 2022 was 4,860 GWh, 3.9% less than in the previous year, and accounted for 1.9% of the total in Spain.
WEATHER AND DAYLIGHT IN SPAIN

The climate of Extremadura is characterised by its irregular temperature and rainfall. It has a Mediterranean climate, although it is influenced by its proximity to the Atlantic and the characteristics of being an inland region. Temperatures rise from north to south, with average temperatures ranging from 5°C in the coldest month to 26-30°C in the hottest months. Summers are hot and dry; winters are mild and humid.

The hours of daylight in Extremadura are approximately:

HOW TO GET A SOCIAL SECURITY NUMBER

CITIZENS OF THE EUROPEAN UNION WITHOUT A NATIONAL IDENTITY CARD

You can get a Social Security number without having an ASSIGNED NIE number, only with a passport or Identity Card from an EU country.

The Social Security affiliation and affiliation number (NOT the NIE) is obtained from the General Treasury of the Social Security (it is not the same as the National Institute of Social Security, they are two different bodies, the Treasury is for registrations/cancellations of work etc., and the Institute for pensions, health, etc.).

Once you have your Social Security number, the company can register you and you can apply for the Certificate of Registration as a European Union Citizen, in which you are already assigned a NIE number and then it can be the company or the worker who communicates the NIE to the General Treasury of the Social Security.

The application can be made in two ways, IN PERSON at the Registry of the General Treasury of the Social Security in the city where you live (in Cáceres the registry is located at AVENIDA DE ESPAÑA 14, 10001 CÁCERES, telephone 92762620000):

- Copy of passport

You must print the form and complete it in capital letters.

- Name
- First surname (if foreigners have two surnames, they are all put on the first surname line).

- **NIF of the contracting entity.**
- **Copy of the employment contract signed by both parties.** The worker’s signature will be accepted scanned. If the contract does not reflect the activity to which the worker will be dedicated, a brief explanatory report on the research project he/she will be joining must be provided (this may be signed by the project director).
- **Provide evidence of which of the cases referred to in Article 72 the contracting entity finds itself in:**
  - Bodies referred to in the Science Act (public universities),
- **Copy of complete valid passport** (all pages).
- Copy of the foreigner’s identity card, if available.
- **Fees.** Payment of the fee will result in the NRC, which must be included in the application. You will find the fee form 790, code 038 for the payment of the fee for the residence permit at the Internet address:

  [https://expinterweb.inclusion.gob.es/Tasa038/login.htm](https://expinterweb.inclusion.gob.es/Tasa038/login.htm)

An application and fee are submitted for each person.

The obligation to pay the fee is triggered by the submission of the application (one application submitted, one fee payable) and its admission for processing. **A fee is payable for each applicant,** for the principal and for each of his or her family members.

**Remember: Obtaining a Foreigner’s Identity Card is compulsory when the authorisation is for a period of more than 6 months**
**TIE**

*(Tarjeta de Identidad de Extranjeros)*

This is an authorisation for temporary residence and work as an employed person.

**REQUIREMENTS**

- You must not be a citizen of a State of the European Union, the European Economic Area or Switzerland, or a family member of a citizen of one of these countries to whom the Union citizenship scheme applies.
- **Not to be illegally** present in Spanish territory.
- **Not have a criminal record** in Spain or in their previous countries of residence for offences under Spanish law.
- **Not be banned from entering Spain** and not be refused entry into the territorial space of countries with which Spain has signed an agreement to this effect.
- **Not being, where applicable, within the period of the commitment not to return** to Spain that the foreign national has assumed when returning voluntarily to his/her country of origin.
- **Pay the fees** for processing the residence permit and the work permit.
- **Present a contract signed by the employer and worker** that guarantees the worker a continuous activity during the period of validity of the authorisation to reside and work. The date must be conditioned to the moment of effectiveness of the authorisation to reside and work as an employee.

**Some of the differences between NIE and TIE, please note that:**

- The NIE is granted automatically when you initiate a procedure or contact the administration. You must apply for the TIE, and it will be issued when you are granted a residence permit in Spain.
- Authorities can take away your TIE but not your NIE. A simple example is when you commit a crime and lose your residence permit in our country. You will not be able to reside legally in Spain, but you will not lose your NIE.
- The NIE does not prove that you are legally resident in Spain. The TIE does.
- The TIE is a physical document, whereas the NIE is only a number, which only has administrative effects.

As we explained, the NIE is unique and forever, i.e., it does not expire. The TIE does. You will have to renew your card according to the residence permit you have.

**Steps to apply for a TIE**

To apply for a Foreigners’ Identification Card, you must follow the steps below:

- **At the Police Station or Foreigners’ Office where you applied for your residence permit, you must make an appointment to apply for the TIE.** To do so, you have one month from your arrival in Spain or the granting of the permit.
- **Pay the fees.** The amount is different depending on the authorisation on which the card is based.
- **Before the card is issued, you must prove that you are the recipient of this document and that you have paid the fees.**
Documentation to apply for a TIE
- Official form EX-17. This form must be submitted in duplicate, duly completed, and signed.
- Proof of payment of the fee.
- Recent colour passport photograph.

REGISTERING IN CÁCERES

Firstly, it needs to be explained what it means to register in a municipality.

To begin with, we must point out that every person living in Spain is obliged to register in the Padrón de Habitantes of the city in which they live. In the case of the city of Cáceres, it is necessary to register in the Padrón de Habitantes de Cáceres.

This municipal register is an administrative register where all those who habitually live in a municipality are listed and their details are recorded as proof of residence in that municipality.

WHY REGISTER IN CÁCERES?

Registration in the city where you live entitles you to recognition as a resident of the city, and as such you will have certain advantages over tourists or those who do not live in the city of Cáceres.

Below, you have the reasons why you should register in Cáceres and what advantages you may have...

- Registering in Cáceres (or in the city where you live) is essential to apply for residence and work permits. As well as for the renewal of the DNI and driving licence.
- Once you are registered in Cáceres you can apply for and receive the health care card.
- It is necessary to be registered in Cáceres if you want to take your children to the best schools in Cáceres.
- The right to vote in the election of the political representatives of Cáceres and the Autonomous Community of Extremadura.
- It allows you to make use of the city's municipal services.
- Necessary to register your vehicle or for certain legal proceedings.
- It is necessary for access to certain social benefits.
- It is required to carry out procedures at the Civil Registry Office.

WHAT YOU NEED TO REGISTER IN CÁCERES

To register in the city of Cáceres or to register your family you will need the following documents:

- **Certificate** of census registration filled in with the requested data.
- **Photocopy of the DNI/NIE** of the persons who are going to register in Cáceres, passport or residence card (foreigners).
- **Photocopy of a receipt for the property where you are going to live.** This can be a photocopy of the rental contract, or a water, electricity, or gas bill in your name.
- **Photocopy of the Libro de Familia** if you want to register your children, partner, or other family members together with a photocopy of the ID card of each of them.
HOW TO REGISTER YOURSELF IN CÁCERES

To register as a resident of the city of Cáceres, the best option is to go to the Cáceres Town Hall offices located in Plaza Mayor S/N, whose entrance is through Plaza las Piñuelas, from Monday to Friday from 9.00 to 13.00.

To consult the procedures or resolve any doubts you may have, you can contact the following telephone numbers: 927 255714 / 927 255792.

You can also do it in the Valhondo Building (it is closer to the university campus where you will be working):

To request the Cáceres census registration certificate you will need to make an appointment, either online or by telephone:

- Online Appointment (https://sede.caceres.es/sta/CarpetaPublic/doEvent?APP_CODE=STA&PAGE_CODE=PTS2_HOME)
- Appointment by telephone: 927 255 800

How to register in Cáceres online

If you wish, you can also register in Cáceres online, through the Cáceres Town Hall website.

If you have chosen this option, you have to go to the Sede Electrónica section of the council’s website. In Trámites you will find Catálogo de trámites, once you have selected this option you should click on the box that say Buscar and enter “padrón”. A list of procedures that you can perform will appear, but you should choose the one called Alta en Padrón de Habitantes. In the new tab that open, you have the option to watch the explanatory video on how to proceed with the procedure, in case it could be helpful.

To continue with the process, you have to scroll down to the Tramitación Online con Autofirma option. Here you would have to enter the documents they ask for, in this case:
- Registration form (Hoja de inscripción o modificación en Padrón Municipal Habitantes. Mod-256)
- Identity document (NIE o Passport + resolution of the UGE)
- Rental contract

Once these documents are entered, an electronic registration receipt is generated. If done correctly, this receipt should have a reference starting with ENT202400.

After completing this procedure, approximately one month later, you could obtain the registration certificate. For this procedure, you can also use Sede Electrónica (if you have a digital signature). To do this, you would have to access through Trámites Destacados, Certificados Padrónales. Once here, choose the document you need, act as an interested party, follow the steps indicated by the platform, and generate the requested certificate in PDF.
TAXES

Although there are important differences in the taxes to be paid depending on whether you are resident or non-resident, both residents and non-residents must pay taxes in Spain.

HOW DOES THE TAX SYSTEM WORK IN SPAIN?

The Spanish fiscal year runs from January to December, coinciding exactly with a calendar year. This simply helps us to understand the duration of the different tax obligations that will arise depending on what you generate in the country and your particular situation.

What does this mean?

All tax obligations generated from 1 January to 31 December are grouped together, and you will have to declare and pay them during the following year. And this is done through your annual tax return, known as Declaración de la Renta, Impuesto sobre la Renta de las Personas Físicas, Modelo 100 AEAT.

When should we pay our taxes?

Your taxes are filed between 1 May and 30 June next year. In other words, we will always file in the current year, the previous year’s taxes.

All matters relating to taxation in Spain, both for residents and non-residents, are regulated by the Spanish Tax Agency, the institution to which you must pay your taxes.

If you want to be up to date with all the latest tax updates, we recommend you visit their website, as they frequently publish the latest updates and all the forms and documents you will need to use.

ARE YOU RESIDENT OR NON-RESIDENT FOR TAX PURPOSES?

To determine exactly what specific taxes you will pay in Spain as a foreigner and how much you will pay, you first need to know whether you are a resident in tax terms or not.

This distinction, as mentioned above, is purely fiscal in nature and has nothing to do with the residence permit you may hold to live legally in the country. For example, it is possible that you are the holder of a residence permit, but for tax purposes you are considered a non-resident because you do not meet the requirements.

So, how do I know if I am a tax resident in Spain?

You will be considered a tax resident if you meet one of the following three requirements:

- You live in Spain for more than 183 days per year (note that the days do not have to be consecutive to count as effective).
- You have economic interests in the country, which means that you carry out your professional activity in Spain, whether you work for a company or are self-employed.
- Your spouse and/or children live in Spain.
COMPLETE LIST OF TAXES IN SPAIN FOR FOREIGNERS

Now you know that you have to file your tax return every year, and that you will have tax obligations regardless of whether you are resident or non-resident.

But what exactly are these tax obligations, and what are the differences depending on whether I am a resident or non-resident?

Below you will find a complete list of all taxes you will have to pay as an expatriate, including applicable tax rates and allowances.

Personal Income Tax (IRPF)

Let's take a closer look at this tax as it is the most important and common tax: income tax, which is levied on the income you generate in the country.

But what can be considered as income for income tax purposes? Basically:

- The salary you get from working for a company or what you earn as a self-employed person through your invoices.
- Capital gains arising from, for example, dividends or interest
- Pension contributions and benefits
- The income you earn from renting a home
- Gains generated from the sale of real estate etc.

All such income is subject to income tax and must be included in your tax return.

In addition, if you are considered a tax resident in Spain, you will have to pay income tax on all income and gains you have generated worldwide (not only in Spain).

Social Security payments

All workers must contribute to the Spanish social security system unless you are a foreigner and receive a certificate of coverage from your home country.

If you work for a company, you receive your salary at the end of each month. This salary is made up of a gross amount and a net amount (the net amount is the amount you finally receive and see in your bank account).

What is the difference?

From your gross salary, the company that hired you pays monthly social security contributions and personal income tax on your behalf. This way, normally, when you do your tax return in June, you don't have to pay extra (depending on the % withholding you have), as the company has been deducting it throughout the year and has paid it for you.

VAT (Value Added Tax)

Finally, there is this indirect tax on consumption derived from the purchase of goods or professional services. It is a tax that is passed on to the final consumer.

The standard VAT rate is 21%, although there is also a reduced rate of 10%, a super-reduced rate of 4%, and there are some products that do not apply VAT (0%) as they are exempt, such as educational courses and training.
HOW TO GET A BANK ACCOUNT

You can set up a bank account to receive your salary. To do so, all you need are the following documents:

- **Employment contract** or, if you do not have an employment contract, a **statement of employment** from the employer or a certificate of employment, including at least the name and address of the company, tax identification number and contribution account code.
- **Valid passport**
- **Non-resident certificate.** This certificate can be requested at any National Police station (in Cáceres at the Dirección General de la Policía Nacional).

The Directorate General of Police is located here (AVENIDA PIERRE DE COUBERTIN, 13. 10005 CÁCERES):

THE SPANISH HEALTH SYSTEM

The Spanish healthcare system is considered one of the best in the world, with public, universal, and free medical care for all citizens. In addition, Spain is at the top of the ranking for organ transplants.

In 2019, Spain was considered the healthiest country in the world. In Spain there is a public and a private healthcare system. To benefit from the public healthcare system in Spain, you must legally reside in the country and contribute to the Spanish government to be entitled to the public service, as it is funded by the government through the taxes mentioned above.

Private healthcare in Spain is paid for on a monthly basis by those citizens who wish to take advantage of it. This fee varies according to the company contracted, and so they can enjoy medical and hospital care when necessary.

PUBLIC HEALTH SYSTEM

Public health services in Spain are classified into two groups: Primary Care and Specialised Care.

Primary Care offers basic services such as consultations, examinations, courses for pregnant women and emergency care.

In Specialised Care, the service is aimed at specialised centres and hospitals, on an outpatient or inpatient basis.

To be able to use the public health system in Spain, you must be registered with the Social Security. Obtaining a Social Security number is free and quick and must be applied for before starting any activity or service and can be requested by the worker or by the employer.

Once registered, you must go to the health centre closest to your home to apply for the Tarjeta Sanitaria, as the health card is called.

The National Social Security Institute is the competent body for determining entitlement to health care from the public funds of the Single Health System. Therefore, if the citizen is unemployed, retired or on leave, he/she is guaranteed care if he/she is registered with the Social Security.

As for foreigners in Spain, as a requirement for entry into the country, the government requires all travellers to have medical insurance or travel insurance with coverage in Spain, otherwise the public service is guaranteed only in cases of accidents, serious illnesses and for pregnant women in labour.

In the case of those who are citizens of one of the member countries of the European Union, you can receive medical care in the Spanish public health system if you present the Spanish Health Insurance Card European Health Insurance Scheme (EHIS).
PRIVATE HEALTHCARE SYSTEM

As mentioned above, there are health insurance plans in Spain, where you pay a monthly fee for medical and hospital care when necessary. For foreigners working in the country, it is also recommended that you take out health insurance, which can do yourself.

In general, there are three types of health insurance in Spain:

- **Accredited without co-participation**: the cheapest but has a low coverage in relation to care and services.
- **Accredited with co-participation**: despite the low monthly fee, it is necessary to pay some costs related to consultations and examinations.
- **Accredited and private**: this is the most expensive option, however, there is the possibility of claiming reimbursement of high amounts, depending on the limit set by the plan.

One of the advantages of health insurance plans is that they offer some specialties that are not available in the public health system, such as ophthalmology. For those who do not have a health insurance plan, there is also the possibility of using the services not offered by the public system in private hospitals, paying separately.

HOW TO GET A DOCTOR?

Once you have obtained your NIE and your Social Security number, you can go to the medical centre assigned to you according to your place of residence in the city. This is where you can apply for your health card and where you will be assigned your family doctor. To do this you will have to go through the administration and provide the information requested.

The documentation required to obtain a Health Insurance Card is: DNI/NIE/Community Resident Card, passport, driving licence or any other document that can prove your identity.

In Cáceres we have several Health Centres:

- Aldea Moret Health Centre: C/ Jesús Nazareno s/n
- Manuel Encinas Health Centre (Cáceres-Zona Norte): Avenida Rodríguez de Ledesma
- Plaza de Argel Health Centre (Cáceres-Plaza de Argel): Plaza de Argel s/n

SPANISH EDUCATION SYSTEM

Spain’s education system consists of five levels of education:

INFANT EDUCATION

Structure: two educational cycles of three academic years each, which are called:
- **First cycle (0-3 years).** Usually in nursery schools or kindergartens, many of which are managed by local councils, consortia or privately. As it is not compulsory and is not offered in the public network of centres, it is usually a stage that is not free of charge.
- **Second cycle (3-6 years).** Most public, private and state-subsidised schools offer this cycle. It can be free of charge and non-compulsory.

PRIMARY EDUCATION

Basic education in Spain is compulsory and free for all persons.

Primary education comprises of six academic years, from six to twelve years of age.

Structure (six educational levels; details of the age of the pupil before the end of the year in which the academic year begins):
- First cycle
  - 1st Primary (6-7 years)
  - 2nd Primary (7-8 years)
- Second cycle
  - 3rd Primary (8-9 years)
  - 4th Primary (9-10 years)
- Third cycle
  - 5th Primary (10-11 years)
  - Primary 6 (11-12 years)

SECONDARY EDUCATION

COMPULSORY SECONDARY EDUCATION

Structure: Two cycles, each with two school years:
- First cycle (12-14 years (if not repeating a year))
  - 1ST E.S.O.
  - 2ND E.S.O.
  - 3RD E.S.O.
- Second cycle (15-16 years (if not repeating a grade))
  - 4TH E.S.O.

At the end of ESO the student (if he/she passes) has different options:
1. Completion of Intermediate Level Training Cycles.
2. Access to the Baccalaureate.
3. Entering the workplace (if you have reached the minimum age for access).

IMPORTANT: If you have not obtained the ESO diploma, you can join a vocational qualification programme.
HIGHER EDUCATION
UNIVERSITY
Following the incorporation into the European Higher Education Area, official university degrees are reduced to:

- **Degree**: Four-year university study.
- **Master's degree**: A one- to two-year course of study, for which enrolment requires a bachelor’s degree or equivalent (diploma, engineering, or technical architect).
- **Doctorate**: A master’s degree or equivalent (bachelor’s, engineer’s, or architect’s degree) is required for enrolment.

NON-UNIVERSITY HIGHER EDUCATION

HIGHER ARTISTIC EDUCATION

These studies cover the areas of:

- Visual arts
- Conservation and restoration of cultural goods
- Ceramics
- Dance
- Design
- Music
- Theatre
- Glass

The duration of the studies is variable and when they are passed, they lead to a bachelor's degree in the corresponding area.
PRE-SCHOOL CHILDCARE

HOME SERVICE

If you need to leave your children in the care of a third person, there are two options:

- **Babysitter**: person who looks after children on specific days. These could be for dinner, a business meeting, a scheduled trip, etc.)
- **Au-pair/Nanny**: comes to your home on a regular basis. This could be the person who is hired to look after your children while you are at work.

There are applications through which you can hire the services of people who can take care of your children:

https://www.sitly.es/canguro/caceres?device=c&utm_medium=cpc&utm_source=google&utm_term=&utm_content=143792741881&utm_campaign=18064916085&gclid=EAIaIQobChMIoJicvpXb_QIVE4jVCh36UQRnEAAYAeElGWPDD_BwE

https://familiados.com/

The average price charged by the person who takes care of your children is usually €10 per hour. However, in the links provided you can see that the price varies depending on what each person asks for.

CHILDREN'S CENTRES

There is also the option of taking them to a nursery or nursery school. In Extremadura we have both private and public centres.

WHAT TO TAKE INTO ACCOUNT WHEN CHOOSING A PUBLIC OR PRIVATE NURSERY OR PRESCHOOL

- **SCHEDULES AND OPENING TIMES**: The difference that may help us choose one or the other could be that the private nursery school has longer opening hours and does not include as many holiday periods as the public nursery school. This can guarantee greater flexibility in timetables and the possibility of greater adaptation for the family.
- **APPLYING FOR A PLACE**: In public nursery schools there is a short and rigid period for enrolment, however, this isn’t the case in private schools.
- **CURRENT REGULATIONS**: Both public and private nursery schools are obliged to comply with the current regulations established by public bodies in relation to health and education.
- **PRICE**: This is one of the aspects that is most often considered, since most of the public nursery schools are subsidised in part by the Junta de Extremadura. This is not the case with the private ones, so their prices will be higher.

SOME NURSERIES SITUATED IN CÁCERES
COLLEGES
In Extremadura, and more specifically in Cáceres which will be the place of residence, there are two types of schools: public and subsidised.

PUBLIC SCHOOLS
Public schools are the majority choice in Spain. Such schools are publically funded and administered. Although public schools admit all pupils who wish to attend, it may not be possible to choose the exact school you want. The allocation of places depends on criteria to be met, such as proximity to home.

PRIVATE SCHOOLS
Public schools are education companies that are financed exclusively by the fees allocated to families. This entails a significant annual outlay, but also some advantages such as being able to choose a centre that perfectly suits the family's needs and values.

CHARTER SCHOOLS
Charter schools could be considered a hybrid between public and private education, as they are privately administered and largely publically funded. This means that teachers are chosen in the same way as in a public school, but parents do not have to bear the full cost of education, as much of the cost is covered by public revenue.

However, it should be considered that charter schools usually include monthly fees.

Depending on the type of school chosen, the enrolment process may be different. Below is a list of schools in the city that can be consulted regarding the enrolment process...

SAINT ANTHONY OF PADUA SCHOOL
It provides training for pre-school, primary, secondary and baccalaureate education, covering all stages of compulsory education.
In addition, it offers bilingual programmes in both infant and secondary education.

MARIA AUXILIADORA SCHOOL
Educationally, they teach the two formative cycles of infant, primary and secondary education, and extracurricular activities such as skating, basketball, plastic arts and crafts or Radio Meña, the centre’s radio station.

SANTA CECELIA DE VEDRUNA SCHOOL
Religious charter school.
They have large and well-equipped facilities: computer rooms, technology workshop, early bird classroom, chapels, basketball and volleyball courts, football pitches and psychomotricity classrooms...
They offer training to both cycles of infant, primary, secondary and baccalaureate studies.
GINER DE LOS RÍOS SCHOOL

Secular and public school. For education, they cover the first and second cycle of nursery, primary and secondary education, as well as courses for adults.

ALBA PLATA SCHOOL

It is the only school in the province that offers an integrated Spanish/English curriculum within the MEC-BRITISH COUNCIL programme, so its syllabus is different from the rest of the schools.

SCHOOL HOLIDAYS

In terms of leisure and holiday time in Extremadura and in Spain in general, children have several holiday periods throughout the year:

- **EASTER HOLIDAYS**: The dates for 2024 are 24 March to 31 March. Each year these holidays depend on which days Easter is celebrated in the country.
- **SUMMER HOLIDAYS**: From the end of June to beginning/middle of September.
- **CHRISTMAS HOLIDAYS**: from 20-22 December until the beginning of the following year.

There are also options for activities for children outside the school day. Some can be taken through the school where they are enrolled and there are also options from private companies or even the Cáceres City Council itself offers different activities for children.
LEISURE & CULTURE

You are going to be living in a community that has many leisure options. Depending on your hobbies and needs, you will be able to choose the options that suit you best:

- Visiting new towns and cities
- Hiking routes
- Practising an infinite number of sports...
- Getting to know our gastronomy
- Visiting museums
- Theatre and plays
- Going to the cinema
- Shopping

CULTURE

Some of the customs of Spanish culture may be different from those of your own culture.

For example, supermarkets usually open at 09.30 and do not close until 21.30, and most commercial establishments open at 10.00, close at 13.30 or 14.00, reopen at 17.00 or 17.30 and close again at 20.30 or 21.00. Banks on the other hand, tend to be open only in the morning. This is because most workers have lunch at home between 14.00 and 15.30, and usually rest until 15.00 or 16.00. Meanwhile, dinner is usually served as late as 21.00 or 22.00.

If you are staying with local families, you should bear in mind these aspects and some others. For instance, the fact that all the houses usually have a washing machine in the kitchen or bathroom, or that the rooms have blinds.

In terms of addressing others, it is customary in Spain to greet women with two kisses, one on each cheek, and it is not unusual to do so between male friends or relatives too. It is also customary to greet friends or relatives with a hug. In this regard, you should bear in mind that social distance in Spain is quite minimal, and it is common to touch another person, usually on the arm or shoulder, in the middle of a conversation. Finally, bear in mind that Spaniards tend to be very expressive and direct when speaking.

It is also customary to queue at places such as bus stops, health centres, banks, or administrative offices; to do so we usually politely ask, “Who is the last in line?”

In Cáceres you will also find that there is a lot of life in the streets, where you can find numerous bars, restaurants, and terraces where there are almost always a lot of people who meet to eat or have a drink. This activity also takes place in the evenings, as the bars and restaurants are usually open until midnight. There are also many late-night pubs which typically close at 03.00.
The University of Extremadura offers a wide range of courses. Below, you can find the link to see the various options...
